

## C01 Concrete Floor Box

The C01 floor box is a recessed one gang box ideal for spaces where few receptacles are needed. It is suitable for concrete floor applications where there is no scrub water accumulation.

The box accepts standard duplex receptacles and decorator style devices. To install data and most low voltage connectors, use our decorator insert (DECF6W) with up to six ports for keystone jacks (HDMI, RJ45, RJ11, USB, etc).

Covers are made of solid stainless steel and brass materials. The BC0 cover features a solid construction with handle, cable guards and brushed finish to provide a reliable and aesthetic solution.

### Features

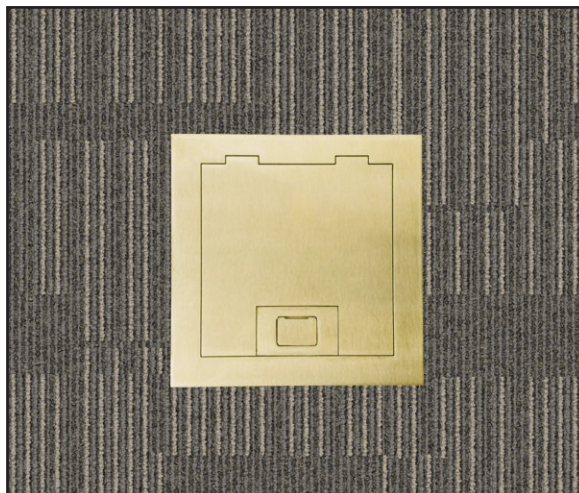

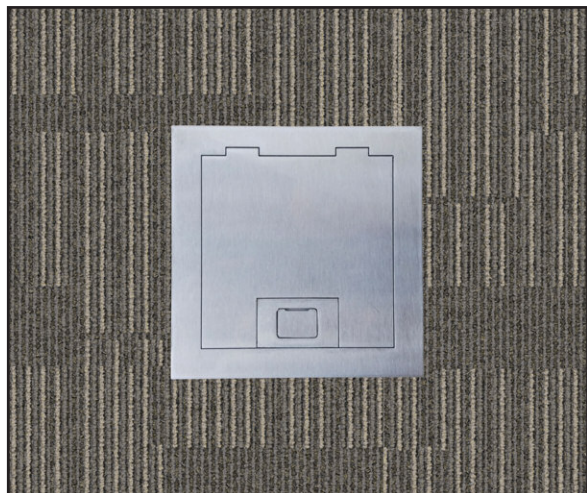

Note: The kit includes the box, cover and a temporary construction cover.

- 16 GA galvanized steel housing
- Low profile box - Easy installation in low profile floors (3 3/8" depth)
- 6 - Knockouts (2 for 1" + 4 for 3/4" conduits)
- The painted interior offers a professional and aesthetic look.
- Powder coating adds extra protection layer against corrosion.
- Manufactured in compliance with UL514A Standard.

	Length	Width	Height
<b>Floor Box</b>	5 3/8" (136.5 mm)	5 3/8" (136.5 mm)	3 3/8" (86 mm)
<b>Cover</b>	6 1/8" (156 mm)	6 1/8" (156 mm)	3/16" (4 mm)

- Solid cover material: Stainless steel (brushed finish) and 3/16" (4 mm) sand textured coated finish.
- Removable and reversible cover - Can be easily rotated.
- Low profile Square trim - Allows a flush finish with the final floor level.

- Locking Screws - Quick installation. No visible screws when closed
- Cable guard with rubber foam and handle - Can be tilted when in use or closed when not used.
- Retractable handle facilitates the user's access to services.

## Connectivity Options

The C01 concrete floor box accepts most power, communications and A/V devices. For low voltage connectors install plate 11612 with our decorator inserts DECF6.

	<b>Part #: 11601</b>		<b>Part #: 11612</b>		<b>Part #: 11600</b>
	<b>Duplex receptacle</b>  Suitable for 15A / 20A duplex receptacles		<b>Decorator style</b>  Accepts decorator style inserts for low voltage applications and GFCI		<b>Blank Faceplate</b>  Covers unused compartments

FBS Faceplates are painted to match the floor box color providing an aesthetic and professional look.

## Ordering Information

The C01 floor box and cover are sold as a kit. Please select the kit number in accordance to the floor box cover that best suits your requirements. Faceplates sold separately.
